

Bus BINGO Game

Everyone loves playing the classic game of Bingo. If you don't already have a bingo sheet to pass out, print our bingo template for all of your passengers and fill in the blanks with a predetermined range of numbers (or predetermined symbols alternatively).

Another way to play could be to pass out the bingo sheets blank and have the passengers fill out the bingo sheets themselves by choosing what predetermined numbers to place in all of the blanks, as long as no two squares underneath the same letter are the same. Be able to draw the Bingo letters and numbers out of two separate containers.

Towards the end of the session, play the Worst Bingo Card Game. Ask everyone who has NOT won a prize so far to raise their hands. Tell them to keep their hands raised until you call a number or symbol that is on their card.

The last person to keep his or her hand raised has the worst bingo card and wins a prize.
