

True or False Game

Have each person on the motorcoach write their name on individual slips of paper. Beneath their name, have them write three things about themselves. Two of these things should be true and one false.

You can use our pre-made forms to pass out for this game. Just cut the pages at the dotted line and hand out a half a page to each passenger along with a writing utensil.

Collect the papers. At different times throughout the trip, introduce a new person and read off their three items. Have fellow passengers raise their hands to guess which statement is false.

The game can be spread over a number of days on an extended trip as a fun game and great icebreaker.
