

Reverse Drawing Game

Materials:

- 1.) Container, which goes with the theme
- 2.) Nice prize

Instructions:

Divide the number of travelers by the number of days on the trip. Then draw out that many names or items with names each day one at a time. The winner will be the last one to be drawn out.

For example, if there are 35 travelers on a trip for 5 days, then you would draw out names seven times and the last name to be drawn would win.

Ideas for themed containers:

1.) *Washington D.C. Trip:*

The names of travelers were put into a basket decorated to look patriotic. A few names were drawn out each day. A Presidential Dollar Collector's Book with the released coins in it was given as the prize.

2.) *Branson, Mo. Trip:*

On a tour to see Branson's *Noah the Musical*, a group leader assigned animals to travelers in pairs. Since many of the animals came in two by two, two travelers were assigned the same animal.

The names of the animals were written on the back of each traveler's nametag. Inside a toy Noah's ark, a group leader drew animal names to see which pair of travelers won that day. The same group leader included research on the uniqueness of each animal and gave a one minute review about the animal.

3.) *A Christmas-themed Trip:*

Make up two cut-apart lists of Christmas-related items. For the first list, put the cut-apart items in a Christmas stocking. For the second Christmas-related list, put one item in each traveler's nametag.

Examples of items that could go on the lists include toys, Christmas tree, Santa Claus, elves, cookies, nutcracker, snow, wreaths, eggnog, caroling and poinsettias.
