

## Group Travel BINGO

This is a great way to get shy travelers out of their shells and get them talking to other members of the group.

Print out the premade “Group Travel BINGO” cards and give a copy to each of your travelers. Each person should try to find a fellow traveler on the trip that fits a description in each of the squares. Once they find someone who matches one of the descriptions, they should have that person sign the square.

You could have the winner be either the first person to get “BINGO” or the first person to reach 10 squares.
