

Speedy Superlatives

Help group members get to know each other by using superlatives.

Split your travelers into groups of 5-10 people.

Have the travelers in the group line up as quickly as possible according to different instructions. Here are some ideas:

- Shortest to Tallest
- Youngest to Oldest
- Alphabetically, by the first letter of your first name
- How many pets you have from greatest to least
- How many siblings you have from greatest to least
- Color of your shirt (think ROYGBIV)

Once everyone is lined up check to make sure they have lined up correctly according to the instructions.
