

THE “FAMILY FUN” INTINERARY

Laredo offers immersive and authentic experiences every member of the family can enjoy. Exciting activities and delicious food are just a few of the things that will make your trip unforgettable. And you'll probably even learn a thing or two at our informative and fun museums.

The **Embassy Suites** is one of our most popular and family-friendly accommodations. Not only will you find welcoming surroundings and comfortable rooms, but your stay includes complimentary breakfast and a manager's happy hour, so you won't hurt your wallet when you stay here.

Once you've filled up with a hearty breakfast, it's time to explore our beautiful city. Start your day by taking the family to the **Laredo Water Museum**. It's one of only three water museums in Texas and a great place to dive in to learning all about water conservation. This interactive museum is great for kids of all ages.

If you want to keep mixing in some learning with your fun, after the Laredo Water Museum, head on over to Mall del Norte for a visit to the **Imaginarium of South Texas**. This children's museum is also hands-on and has been educating and amazing kids since the 1980s. You'll learn all about dinosaurs, physics, fossils, chemistry and many other cool scientific topics.

Next, kick the fun into high gear at **Pla-Mor Entertainment**. With 24 bowling lanes, an arcade, laser tag, a ropes course with zipline, rock climbing, virtual golf, and even an on-site restaurant, you might not ever want to leave.

After all this fun, the little ones may be tuckered out. But if they get a second wind and want to keep the good times rolling, you'll want to catch a show at the **Lamar Bruni Vergara Planetarium**, located at the Texas A&M International campus. This cosmic adventure immerses you in an audio-visual experience you won't find anywhere else in Laredo.
